OBJECTIVES
These learning paths provide Linux fundamentals through advanced training, as well as LPIC-1 certification training. Recommended prerequisite training or equivalent skills and experience are key to benefitting from these technical, interactive courses. Click on the course icon to register.

**Linux Fundamentals**
For those with little to no Linux experience that need to uplift their skills to support Linux compute environments.

- **U8583S**
  - Linux Fundamentals (GL120)
  - 5 days 5 credits

**Linux Administration**
For those with baseline Linux skills or experience working with Linux compute environments and need to uplift their skills as a Linux Administrator.

- **H7091S**
  - Enterprise Linux System Administration (GL250)
  - 5 days 5 credits

**Linux Advanced**
For those with baseline and/or some advanced Linux skills that are seeking to uplift their Linux skills to support advanced hybrid cloud environments.

- **U8531S**
  - Linux Troubleshooting (GL314)
  - 5 days 5 credits

- **U2794S**
  - Linux for Unix Administrators (GL615)
  - 5 days 5 credits

- **HJ7F5S**
  - Enterprise Linux Server Hardening (GL413)
  - 4 days 4 credits
