HPE Right Start Knowledge Bundle HPE Ezmeral Runtime Enterprise

Learn more   **View now**

Why HPE Services?

- Comprehensive worldwide HPE technical, IT industry and personal development training
- Training and certification preparation for ITIL®, Security, VMware®, Linux, Microsoft and more
- Innovative training options that match individual learning styles
- Anytime, anywhere remote learning via HPE Digital Learner subscriptions
- Verifiable digital badges for proof of training, skill recognition and career development
- Simplified purchase options with HPE Education Learning Credits

Don't know where to start or what is important when it comes to initial skills and knowledge you need for HPE Ezmeral Runtime Enterprise? HPE Right Start Knowledge Bundles are designed to deliver essential skills and knowledge at the right point in time—so that you can quickly and effectively get up to speed on your new technology. HPE Right Start Knowledge Bundles are easy to consume with a combination of modalities that accommodate your work schedule. Each bundle includes five days (or less) of ILT/VILT training, plus access to additional self-paced eLearning for a full 12 months. The eLearning can be used as often as you like for reference and refresher learning.

These bundles can be purchased using HPE Education Learning Credits or HPE Education Learning Credits for Support Contracts. Each bundle includes a recommended set of training, but you can choose to spend the learning credits for any training offered by HPE Services.

Audience

- Since every business is becoming a digital business facing increased IT complexity (new data sources, new business models, new threats), the HPE Right Start Knowledge Bundles are for all enterprises.
- This HPE Right Start Knowledge Bundle is most suitable for
  - System administrators
  - DevOps professionals
  - Data engineers

HPE Right Start Knowledge Bundle objectives

With the HPE Ezmeral Runtime Enterprise Right Start Knowledge Bundle, you will be able to:

- Quickly and effectively gain essential skills and knowledge to manage and support HPE Ezmeral Runtime Enterprise
- Accommodate your work schedule with a combination of modalities
- Understand how to create and then manage Containers
- Understand key Kubernetes concepts (clusters, objects, etc.)
- Understand all basic administration concepts of HPE Ezmeral Runtime Enterprise 5.3, including installation, tenant management, user management and maintenance

HPE Right Start Knowledge Bundle outline

H0DS3S: Docker
- This course covers all the core features of Docker including container creation and management, interacting with Docker hub, using Dockerfile to create and manage custom images, advanced Docker networking, the use of Docker volumes to manage persistent data, and Docker Compose to build multi-container applications. Emphasis is placed on best practices and how to secure Docker installations and containers. The course culminates with comprehensive labs where students use Docker, Git, and a continuous integration server to automate the testing of containerized applications. For more information see the course datasheet.

HJ7F2S: Kubernetes Administration
- This course covers the topics of the Certified Kubernetes Administrator (CKA) exam. Topics include installation, application lifecycle management, networking, storage, security, scheduling, logging, maintenance, and troubleshooting of Kubernetes. For more information see the course datasheet.

HG7G2S: HPE Ezmeral Runtime Enterprise Administration
- This course is for administrators who want to learn about the installation, upgrade, system management, network integration and other tasks required to effectively administer HPE Ezmeral Runtime Enterprise 5.3 (previously known as HPE Ezmeral Container Platform). Hands-on labs are included. For more information see the course datasheet.

HPE Digital Learner Silver Subscription
- HPE Digital Learner is a subscription-based online learning program that provides 12 months of unlimited access to extensive libraries that span HPE technology, and industry training in technology and development, digital transformation, business skills, leadership and productivity and collaboration tools. This service includes curated learning paths, hands-on via simulated and virtual labs, certification prep, digital badges and more—available anytime, anywhere and at your own pace. For more information, please visit hpe.com/ww/digitallearner.

These bundles can be purchased with HPE Education Learning Credits (140 units of HU7R8E or HU7R8A1 HPE Education Learning Credits for Data Analytics Services) or with HPE Education Learning Credits for Support Contracts (HA167AC). For the HA167AC, contact your HPE Services representative or HPE authorized partner for local pricing. Each bundle offers a recommended set of training, but the customer can choose to spend HPE Education Learning Credits on any HPE Services training course.
