Why HPE Services?

- Comprehensive worldwide [HPE technical, IT industry and personal development training](#)
- [Training and certification preparation](#) for ITIL®, Security, VMware®, Linux, Microsoft and more
- Innovative [training options](#) that match individual learning styles
- Anytime, anywhere remote learning via [HPE Digital Learner](#) subscriptions
- Verifiable [digital badges](#) for proof of training, skill recognition and career development
- Simplified purchase options with [HPE Education Learning Credits](#)

Don't know where to start or what is important when it comes to initial skills and knowledge you need for HPE ML Ops?

HPE Right Start Knowledge Bundles are designed to deliver essential skills and knowledge at the right point in time—so that you can quickly and effectively get up to speed on your new technology. HPE Right Start Knowledge Bundles are easy to consume with a combination of modalities that accommodate your work schedule. Each bundle includes five days (or less) of ILT/VILT training, plus access to additional self-paced eLearning for a full 12 months. The eLearning can be used as often as you like for reference and refresher learning.

These bundles can be purchased using HPE Education Learning Credits or HPE Education Learning Credits for Support Contracts . Each bundle includes a recommended set of training, but you can choose to spend the credits on any training offered by HPE Services.

Audience

- Since every business is becoming a digital business facing increased IT complexity (new data sources, new business models, new threats), the HPE Right Start Knowledge Bundles are for all enterprises.
- This HPE Right Start Knowledge Bundle is most suitable for
 - System administrators
 - Data scientists
 - Data engineers

HPE Right Start Knowledge Bundle objectives

With the HPE ML Ops Right Start Knowledge Bundle, you will be able to:

- Quickly and effectively gain essential skills and knowledge to manage and support HPE ML Ops
- Accommodate your work schedule with a combination of modalities
- Understand all basic administration concepts of the HPE Ezmeral Runtime Enterprise 5.3, including installation, tenant management, user management and maintenance
- Run through an example of a typical machine learning workflow
- Operationalize your model
- Apply best practices to help accelerate the development of user-based prediction analysis

HPE Right Start Knowledge Bundle outline

HG7G2S: HPE Ezmeral Runtime Enterprise Administration

- This course is for administrators who want to learn about the installation, upgrade, system management, network integration and other tasks required to effectively administer HPE Ezmeral Runtime Enterprise 5.3 (previously known as HPE Ezmeral Container Platform). Hands-on labs are included. For more information see the [course datasheet](#).

HPE Digital Learner Silver Subscription

- HPE Digital Learner is a subscription-based online learning program that provides 12 months of unlimited access to extensive libraries that span HPE technology, and industry training in technology & development, digital transformation, business skills, leadership and productivity & collaboration tools. This service includes curated learning paths, hands-on via simulated and virtual labs, certification prep, digital badges and more—available anytime, anywhere and at your own pace. For more information, please visit hpe.com/ww/digitallearner.

And one of the following:

HJ7H2S: HPE Ezmeral ML Ops

- This course is for developers who create and run machine learning applications on HPE Ezmeral Container Platform 5.3. The course teaches how to deploy clusters and provide real-life prediction analysis for specific use cases. The course consists of 30% lecture and 70% lab exercises. For more information, see the [course datasheet](#).

HJ7H2AAE: HPE Ezmeral ML OpseLearning

- This eLearning course is for developers who create and run machine learning applications on HPE Ezmeral Container Platform 5.3. The course teaches how to deploy clusters and provide real-life prediction analysis for specific use cases. The course consists of 30% lecture and 70% lab exercises. For more information, see the [course datasheet](#).

These bundles can be purchased with HPE Education Learning Credits (90 units of HU7R8E or HU7R8A1HPE Education Learning Credits for Data Analytics Services) or with HPE Education Learning Credits for Support Contracts (HA167AC). For the HA167AC, [contact your HPE Services representative or HPE authorized partner for local pricing](#). Each bundle offers a recommended set of training, but the customer can choose to spend HPE Education Learning Credits on any [HPE Services training course](#).
