HPE Digital Learner HPE OneView

Learning path ID	CP056
Duration	14 hours
Browse related courses	View now

This content pack provides knowledge and skills related to the installation, implementation, and management of the HPE OneView suite of products. HPE OneView is an integrated converged management platform that provides software-defined intelligence across the entire HPE family of infrastructure solutions. These self-paced eLearning courses are essential training for system, network, and storage administrators using HPE OneView, as well as for administrators who use HPE OneView to manage supported computing components. Hands-on practice labs in a simulated HPE OneView environment are included to help students better understand and retain HPE OneView knowledge.

5 reasons to choose HPE as your training partner

1. Learn HPE and in-demand IT industry technologies from expert instructors to build career-advancing power skills.

2. Enjoy personalized learning journeys aligned to your company's needs.

3. Choose how you learn: in-person, virtually, or online—anytime, anywhere.

4. Sharpen your skills with access to real environments in virtual labs.

5. Validate your knowledge with free digital badges that you can share with your professional network.

Explore our simplified purchase options, including HPE Education Learning Credits.

Audience
This content pack is recommended for system administrators, engineers and consultants who install, manage, and monitor HPE datacentre infrastructures.

Recommended learning
HPE recommends that students complete one of the following prerequisites prior to starting this content pack:
- HPE BladeSystem Administration (HE646S)
- HPE Virtual Connect (HK758S)
- Or similar experience

Content Pack Objectives
After completing this course, you should be able to:
- List the main new features in HPE OneView
- Locate HPE OneView product documentation and resources
- Retrieve support information from the HPE OneView Support Matrix
- Install and configure HPE OneView on any of the three supported hypervisor hosts
- Perform a guided setup
- Backup a HPE OneView appliance

Detailed learning path outline
