HPE Digital Learner—HPE OneView Ecosystem Content Pack

This content pack delivers knowledge and skills related to the various products that comprise the HPE OneView Ecosystem of supporting products. The current offering includes the HPE OneView VMware for vCenter® Essentials course and the HPE OneView Global Dashboard Essentials course. HPE OneView VMware for vCenter is a VMware vCenter plugin used to manage HPE ProLiant and Synergy servers.

These self-paced eLearning courses are essential training for system, network, and storage administrators using HPE OneView with any of the additional ecosystem products.

**Audience**

This content pack is recommended for system administrators, engineers and consultants who work in HPE OneView environments that include the Global Dashboard and/or VMware for vCenter plug-in.

**Recommended learning**

HPE recommends that students have previous experience with HPE OneView.

**Content Pack objectives**

After completing the courses in this content pack, you will be able to:

- Install the HPE OneView for VMware vCenter plugin and perform the necessary post installation tasks
