

HPE INTELLIGENT MANAGEMENT CENTER (IMC)

OBJECTIVES

This learning path provides the route to leverage HPE Intelligent Management Center (IMC) to learn how devices are added through discovery and how they can be viewed. This will help in understanding configuration management and explains how HPE IMC is used to manage firmware and configuration on devices. It covers how alarms are received and processed in HPE IMC, along with trap management.

Choose between either path to learn HPE IMC. Managing HPE Intelligent Management Center is a combination of HPE Intelligent Management Center courses HQ7C1S and H61N0S.
